## PERSONAL STATEMENT

I am a front end developer from Winchester, Virginia and I made the transition to working remotely just over a year ago. I have a passion for design and I love building user interfaces. My specialty lies in styling the UI and making it shine. I have 5 years experience working with the web and the most recent 2 have been in a fast-paced agile environment.

I build and style user interfaces for web and mobile applications where I use HTML, Sass/CSS with methodologies like OOCSS, Smacss, BEM, and JavaScript. I work with several front end frameworks including AngularJS, Ionic, Ext JS, and utilize version control such as Git.

On a typical night you can find me learning more JavaScript, game programming, or playing Dungeons and Dragons.

## WORK EXPERIENCE

**2** Modus Create Inc
From 2014 to 2016.
User Interface Engineer

**1.5** Timberlake
Membership Software
From 2012 to 2014.

Theme / Styles — Template — HTML / JS

User Interface

## EDUCATION

BFA, Computer Game Design
### George Mason University
Fairfax, VA 22030

## PRAISE

" Once again Kelby was professional, timely and a pleasure to work with. Hang onto that guy!
Thanks to you, and Kelby, and Modus for your help. "

- Angelo Outlaw, CSA Travel Protection

" Awesome! Looks good.
It's also been a pleasure working with both you and JD. Hopefully we can collaborate again in the future. "

- Dave Ryan, CheckSec
